

# LABYRINTHEUS

Thank you for checking out the Basic Print and Play for Labyrintheus.

Just a few instructions for putting together this game.

1. Print out all of the cards on standard paper.
2. Print out the Persona Cards on cardstock if able.
3. Cut out the Encounter, Treasure and Persona Cards along the dotted cut lines.
4. Arrange the cards into 8 piles, first organized by the symbol on the card then by the type of card (Encounter or Treasure).
5. Sleeve all the card printouts with any type of common card as a back for sturdiness.
6. You'll need some way to track health, Gate Stones (4 per player) and Hardness (max of 4)

Be sure to print out the Tome of Knowledge (Rule Book) for easy reference during game play. Also, check out our "How to Play" video on our website, YouTube or Board Game Geek for easy to follow game play instructions.

This version of the Print and Play is a Basic version. During our Kickstarter a deluxe version with full color artwork (or black and white if you prefer) in both 90 and 300 dpi will be available.

We will be releasing Print and Play versions of the expansions soon. First up is the Half-Dragon Paladin (Cray) and the Halfling Druid (Mepboo). Print these out and add them to the game to increase the player count to 6 or add a little bit of variety to the mix. Finally, we would like to thank you for taking the time and effort to print out, build and play our game. We really do appreciate it. We hope you enjoy playing it as much as we do. Please let us know what you think about the game either on Twitter, Facebook or on our entry on Board Game Geek.
